### Graphical Data

**H (M)**

- Grid with various curves indicating performance at different pressures and flow rates.

**Q (M³/H)**

- Grid with curves showing flow rate versus pressure at different efficiencies.

**NPSH (M)**

- Grid with curves indicating net positive suction head at different flow rates.

**SP (KW)**

- Grid with curves showing power consumption at different flow rates and pressures.

---

**Notes:**

This curve refers to density = 1.
